

My Week, Upgraded

Find one recurring task worth a small experiment.

01 Tasks I repeat and how often

02 Time spent today (including review)

03 One task to pilot and why

04 What good looks like; baseline evidence

Human / AI / Together

Assign each step to the right kind of help.

01 The workflow and its steps

02 AI can draft or organize

03 Human judgment and approval points

04 Data boundaries and stop conditions

Use approved or synthetic information. Keep sensitive details out of shared worksheets.

Free editable worksheets: superpowers-complete-production.up.railway.app/field-guide

The Better Brief

Useful context makes a useful first draft.

01 Audience, goal and desired format

02 Approved facts and source links

03 Constraints, voice and examples

04 Success checks and reviewer

Before You Connect

Understand access before granting it.

01 Publisher, official docs and review date

02 Data shared, retention and permitted use

03 Minimum permissions; read versus write

04 Test account, revoke path and owner

Check Before You Share

Keep responsibility for the finished work.

01 Claims and original sources checked

02 Privacy, consent and rights checked

03 Bias, accessibility and voice checked

04 Final approver and remaining uncertainties

Agent Mission Card

Give an agent a bounded mission.

01 Goal, input and allowed actions

02 Forbidden actions and approval gates

03 Success tests and spending/time limits

04 Stop, escalation and rollback plan

Keep, Cancel or Replace

Evaluate a tool with evidence from your own work.

01 Task, baseline and tools compared

02 Quality, errors and review effort

03 Cost, data requirements and switching effort

04 Decision, evidence and next review date

My First Seven Days

Build confidence through one small, useful practice.

01 Day 1: choose a task; day 2: write the brief

02 Day 3: try a draft; day 4: check it

03 Day 5: improve; day 6: repeat and measure

04 Day 7: reflect; keep, change or stop
